

COMPANY PROFILE ■ ■

www.bfb-pharma.com

History

BFB Pharma Handel GmbH is an internationally active German company for manufacturing, export and distribution; operating intensely in the near and Middle East area, with range expertise in the fields of healthcare, cosmetic products, hygiene products and enfant nutrition.

Since its foundation in 2004, when BFB was called **into life** with the vision to improve people's lives, our dynamic company has kept developing, changing and improving.

The head quarter is located in **Hannover, Germany**. However we have dependencies and agencies in several countries in the Middle East, that contribute to our ongoing success.

Marinox[®]

Our own Brand is Marinox[®]

epitomize highest quality and extraordinary market success. Our formula and products are developed according to the specifications received from the markets in our focus.

Knowing about the importance of sensible nutrition and the body's needs for vitamins, minerals and trace elements, we started our work in the field of food supplements, serving people of all ages.

From pregnancy over childhood to any state of adult age, special formulas and cutting-edge solutions of our food supplements care for immune system and well-being. ■ ■

Our comprehensive idea of health has led us to continuously extend our product range. By now, we have managed to successfully introduce these brands of body care products for babies and adults, baby articles, etc. ■ ■

Marinox®

GLYSOMED®

Apart from laying a strong focus on the quality of our products, we simultaneously care about our partners sharing our expertise in export and taming the complexity of international trade.

Doing business with us is safe, fast and easy, due to our dependable network of suppliers and logistics as well as our paperwork know-how. We arrange all required transportation services and documentation for export, leaving the decision of intensity of your involvement in the process up to you.

We are constantly in touch with people in the countries we are exporting to and the growing demand for our products and services shows us this is the right way to follow. ■ ■
